Won. Lost. P.Ct. Philadelphia St. Louis .... Brooklyn .. Boston ... New York 47 54 61 Cincinnati . Chicago .... The Washington-Baltimore game sched-

uled for yesterday was postponed by reason of the heavy downpour. It served to give the hard-working Senators a rest. to give the hard-working Senators a rest, and there is every prospect that they will enter the game with McGraw's men this afternoon muchly benefited by their two days lay off. It is expected that Lee will be sent in against the Orioles, and this should mean that the men from the neighboring city will be given a hard game, as the left-handed young twirler has proved very effective against the Mc-Grawites in the games in which he has officiated. Washington will play a double header with Baltimore tomorrow.

Manager Manning states that after a week's hunt in various cities in which he had been informed there were phenomenal ball players awaiting engagements he has come to the conclusion that it will be a very difficult matter to secure a player of more than mediocre ability until minor league seasons are finished. No matter what sort of offers are made to the ambitious amateur or semi-professional players, they almost invariably find some excuse for not signing with an American League manager at the last moment, and as the constitution of the moment, and as the constitution of the Ban Johnson league has some paragraphs regarding the signing of players who are under contract with teams in other leagues, there is no chance to secure and men in these quarters. The outlook for the needed strengthening of the Senators is, therefore, anything but bright, and Manager Manning will endeavor to struggle through the remainder of the season with the present organization, although it is doubtful if the men can pull themselves together and increase their percentage.

Charles Mathison, one of the most prominent writers of baseball and other sporting topics in the country, is of the opinion that there is little doubt but that the conflict between the rival big leagues will be continued next year, and with re-newed vigor. Says Mr. Mathison in reference to this fight between the two organi-

"That Johnson's organization has proven a thorn in the Boston side cannot be de-nied, and Chicago is not overjoyed at the essuce of Comiskey's pennant winners that city. It is highly probable, there-ore, that the major league will make a oncerted attempt to crush out its youth-

Tail rival.

"From the West comes an assertion that the plan of battle has been arranged, and the chief stroke of the National League will be a combination of the hitherto bostile Hart and Freedman forces. The Brooklyn club is to be ousted, its best men divided up between New York and Chicago, and either Providence or Bultimore, with McGraw in charge, will be put in the National circuit.

best men divided up between New York and Chicago, and either Providence or Baltimore, with McGraw in charge, will be put in the National circuit.

"On the other hand, the American, it is said, is working a scheme to purchase stock in certain National League teams. It is asserted that the majority of the stock in the St. Louis club will pass into American League hands if the Robisons are not watchful. The American wants to break into St. Louis, and is equally desirous of a footing in New York. A few days ago it looked as if the American had fixed up some deal looking to the lease of Manhattan Field. The combination of interests now said to be forming between Hart and Freedman would crimp this scheme and compet the American either to go to the Bronx, at tremendous expense, or to locate across the fiver in New Jersey, or to have a team in Brooklyn.

"It is pretty well known that American League agents have been after the best men of the Pittsburg club, and that Brush has had men trying to nip players of the Washington and Detroit teams.

"Johnson says that the American is pretty healthy and not looking for peace or fight, "We can go right ahead and take care of ourselves without cither scrapping or laying down, said he. Yes, we will break into other cities, if we feel that our circuit can be strengthened."

"Providence is one of the points which will figure strongly in the coming tussle, as both leagues are said to want it for a break jump between towns. The Rhode Island city is ripe for big league ball, and would support a winning team. Murray, the Providence manager, will he put in charge of any club that may go in, and should the National take the town in place of Brooklyn, Murray will have McGraw simply as a captain and ball player. The National takes Baltimore, as McGraw undoubtedly desires, he will be left in peace as leader of his team.

"One of the rumors had it that the National League precidency would so to James A. Hart next season, with Habion officiations."

tional League precidency would go to James A. Hart next season, with Hadion officiating as manager of the Chicago club: that Freedman would be president in 1995, the system of rotation in office be-ing given a trial."

The resolution was adopted.

A recess had just been declared when it was announced that J. T. Sweeney had been elected president of the higher board. President Paff then stated that he was ready to name the various committees. He stated that he had be, n confronted with a difficult problem in assigning the members of the various com-mittees, but feeling that he had been entirely impartial to every one, he had no apologies to make. He further stated that it would be noticed that he hed pair the name of Mr. Snowden, his predecessor on only one committee, and that a minor one. This, he said, was at the request of Mr. Snowden, who wished to be relieved from active committee work as far as possible.

Later on King Street, in front of T. A. Groave's store. Policeman Travers claims, Sherman made an attempt to escape. The policeman struck hi ma stunning blow with his laton, which knocked the man to the ground and rendered him hors decombat. The blood flowed freely and a large crowd soon gathered around the man. Afterward the man was taken to the police station to see the unfortunate man. Lieutenant Smith bathed the man's head and did everything possible to alleviate his sufferings until the arrival of a physician. Shortly afterward Dr. E. A. Groman arrived, and after an examination ascertained that the man had a cut on the head about two these deep and two inches in length. The doctor took six stitches in the man's head, after which he was taken to his cell. Tonight Sherman is resting comfortably.

From what can be learned of the fight it was nothing but a drunsen brawl, in which all five were engaged. None of the men were hurt. A colored boy who was present when Policeman Travers struck Sherman says that Sherman had put his hand in his pocket, as if reaching for a wrispon. The boy was summoned to appear at the hearing tomorrow morning.

Sherman is about forty years of age and Scarce of the burglaries.

A HANDSOME FOUNDLING.

Third Precinct Police Say This Baby Holds the Record.

A tiny abandoned boy baby, scarcely ore than a week old, is being cared for y Mrs. Helen G. Wilson, the nurse of the Board of Children's Guardians, at 1757 L Street northwest. The infant was found about 7 o'clock yesterday morning by Policeman Allen, of No. 5 precinct, in the rear of the residence of Warren C. Bickford, 2511 K Street northwest. The baby was sucking contentedly at a bottle of milk when found, and his good humor has continued ever since. The police have been working on the case, but so far have not been able to learn anything concern-ing the parents of the child.

The baby was clothed in recently made infant garments of rather plain material. There were no marks on the clothing to There were no marks on the clothing to lead to the identity of the child's parents. The baby, although only a few days old, is a strong, healthy looking youngster and is unusually pretty. He has dark blue eyes, almost violet in color. His skin is very pink, while his small, well-shaped head is covered with an extraordinarily heavy growth of fine light-brown hair.

Altogether he is the handsomest abandoned baby which has been found in town in a long time.

The haby was first noticed early yesterlay morning by residents of the vicinity of Twenty-fifth and I Streets northwest. When found by the polices would put an end to the conditions:

## PREPARING LEGAL BRIEFS

Anti-Trust Evidence Being Gathered by Labor's Counsel.

Result Warrants Asking Attorney General's Action Against the Steel Corporation-Information and Sub-

scriptions Sought From the Public.

Anti-Trust League and of District Assemagain last night at the rooms of the former organization, 1239 Pennsylvania Avenue, and discussed the plans outlined to proceed against the United States Steel Corporation for violation of the Sherman Anti-Trust law and the untitrust laws of the several States in which the trust is operating. H. B. Martin, the chairman of the joint committee, presided and William L. Dewart officiated as secretary.

The joint committee has been actively at work for the past week collecting evi-dence with which to proceed against the trust, and now has its facts well in hand; Much of the evidence already obtained has been placed in the hands of counsel to be included in the bill of complaint against the corporation which the actorneys are preparing. An appropriation of 1500 was voted for the collection of further efidence and the payment of coursel. Frank S. Monnett, former Attorney General of Ohio, and A. A. Lipscomb, of this city, who have been retained as counsel, will be assisted by Judge R. S. Tharin, and it is probable that another lawyer will be secured to assist in pro-the case in Ohlo.

A subcommittee for the collection of evince was appointed comprising H. J. Schultels, Chairman; Thomas P. O'Day, Judge R. S. Tharin and Capt. Patrick O'Farrell.

The joint committee is anxious that the opponents of the trust who have evidence in their possession which would materially aid the case should submit it to the committee. It is proposed to bring a case in the Federal courts for the violation of the Federal statute in causing a restraint of trade and commerce, and that other actions shall be brought in Ohio, Illineis, and Pennsylvania under the State laws. begun in the various cases have not yet been decided upon, but the suits will be filed where the strongest cases can be

made out against the trust. ion from the evidence already in hand that it is warranted in bringing the matter to the attention of the Attorney General and asking him to proceed against the trust for violation of the law. In case he ignores the evidence and declines to act, the committee will appeal to the President for relief, and will then institute mandamus proceedings to compel the Attorney General to file a complaint against the trust. The same procedure will be resorted to should the Attorneys General of the States refuse to proceed,

as requested.

The committee reported last night that funds for the aid of the cause against the trust were coming in. A considerable sum is required, however, to successfully carry on the work, and public subscriptions are asked for. A committee consisting of Cotter T. Bride, the National Treasurer of the American Anti-Trust League; M. G. Brink, J. A. Collins, and H. J. Schul-tels was appointed to assist in the col-

ection of funds.
In reply to the statements recently made by Representative Burton of Ohio that no intervention upon the part of the Gov-ernment in the steel strike is feasible, H. B. Martin, National Secretary of the Anti-Trust League, points out what he considers would put an end to the condi-

that he was a waif, and that he will probably go through life without ever establishing his identity.

The buby was amply provided with clothes, two changes of wearing apparethency wrapped around him in the basket was a common split wood one. The black cambric lining of a woman's dress was placed in the bottom of it to make a soft bed, but there were no marks upon it to lead to an identification.

In the basket were two bottles of fresh milk, one provided with a rubber nipple. The child is a bright, intellectual looking little fellow, and the police believe that he may some day be proved to be more than an ordinary descrited baby.

From the physical condition of the baby Mrs. Wilson has concluded that he caunot be much more than a week old. The baby will be turned over to the Board of Children's Guardians, and from them to some foundling institution, unless some one wishes to adopt him.
